SCS
Swiss Chemical Society

Event Name	**Summer School on Organic Synthesis 2027**
Date	22.-26. August 2027
Location	4 Vallees Hotel, Haute-Nendaz
Focus/Topic	The Swiss Summer School 2027 is a multi-day out of town course for MSc, PhD and postdoctoral students with a focus on chemical synthesis. It covers a broad spectrum of topics closely linked to some of the most important aspects of organic synthesis such as synthetic method development, photoredox catalysis, complex natural product synthesis, and fundamental physical organic chemistry and offers a platform to students for the scientific exchange with peers and with experts in the field from academia and industry.
Audience	70 participants (students/postdocs and junior researchers from industry). The lecturers are university professors and researchers form industry.
Website	https://summer-school27.scg.ch/ (available as of November 2026)
Total budget	CHF 80'000
Chair of the OC	Prof. Christian Bochet, University of Fribourg
Sponsoring / Collaboration	☐ Sponsored Lecture: 4'000 CHF - Logo on the website and the symposium flyer - Scientific or technical lecture by a company researcher - Short presentation of the company and round table discussions with students - Accommodation and meals for 1 day/night included. ☐ Basic Sponsoring Package: CHF 1000 CHF - Logo on the website and the symposium flyer. - Option to present company information and gadgets at the registration desk.
Booking	Please tick the box above and send the form to info@scg.ch Questions? Contact Céline Wittwer, wittwer@scg.ch Invoice address: PO Number Contact person Name: Email: Date, location
